pre-defined order of the rows in the table. It does
require Java and an X Server running but we
all should know how to do that by now. Heather
posted this under her ‚just for fun‘ category, but I
think it can also be a nice way of letting off steam.
Because employers know they have access to
unfiltered information about you, and they will
assume that unfiltered information is more accu-
rate than the pre-packaged stuff you gave them. If
